Index

SOCIAL BIOLOGY

Volume 22, 1975

ABORTION
——— legal: and reduction in unwanted births, 9–10; effectiveness of as birth control, 23–33; related to marriage rates, 117–124
——— spontaneous: and ABO blood groups and placental alkaline phosphatase, 221–227
Adadevoh, B. Kwaku: bk. rev., 296
Admixture: in American Indians, 206–207
Adolescent sterility, 19–20
Age: and disability risk, 243–244, 247; at first coitus and cervical neoplasia, 255–260
Age heaping: in recent national censuses, 279–281
Alcock, John: bk. rev., 194
Alienation: and unwanted fertility, 60–74
American Indians: congenital malformations in, 203–215
Ames, B. N.: abs., 375
Analyst and the Adolescent at Work, The, 196
Animal Behavior: An Evolutionary Approach, 194
Assortative mating: and filial regression to the mean, 86–88
Atlas of Mammalian Chromosomes, An, 382
Ayala, F. J.: bk. rev., 195

BAKER, JOHN R.: bk. rev., 194
Ballonoff, Paul A.: bk. rev., 294
Banton, Michael: bk. note, 379
Bass, Medora A.: bk. rev., 98–100
Beiles, A.: abs., 200
Benjamin, Bernard: bk. rev., 197
Berns, M. W.: abs., 107
Biodemography: of Yanomama Indians (abs.), 290
Birth complications: and mental illness, 269–278
Birth control: effectiveness of abortion in, 23–33. *See also* Contraception, Family planning.
Birth order: and family size, social class, and intelligence, 261–268
Blizard, D. A.: abs., 107
Blood groups: frequencies of in Britain (abs.), 108; among American Indians, 206–207; and spontaneous abortion, 221–227; differences in among DZ twins, 372–374
Bochkov, N. P.: bk. rev., 294
Bonner, John T.: bk. rev., 196
Boulding, Kenneth: fertility control proposal of, 1–16
Brackenridge, C. J.: abs., 199
Brady, R. O.: abs., 196
Brain drain: from India, 250–254
Brazil: genetics of Yanomama Indians of (abs.), 290
Britain: blood group frequencies in (abs.), 108; fertility of peerage in, 285–288; families with children in, 344–355
Brooke, Eileen M.: bk. rev., 293–294
Brooks, C. M.: bk. note, 380
Byrne, Donn: bk. note, 381

CANCER: and hair dyes (abs.), 375
Cancro, Robert: bk. note, 194
Causal Thinking in the Health Sciences, 102–103
Census: use of in computing period rates of spinsterhood and childlessness, 134–143; age heaping in, 279–281
Cervical neoplasia: and age at first coitus and contraceptive choice, 255–260
Changing Sex Differential in Mortality, The, 293
Childbirth: complications of among mentally ill and well mothers, 255–260
Childlessness: method of computing period rates of, 134–143
Children: perceived contribution of to marriage, 75–85
Cholesterol. *See* Serum cholesterol
Chromosomes: and drug ingestion (abs.), 106; and perinatal deaths (abs.), 106; deletion of by laser (abs.), 107; fluorescence detection of breakage in (abs.), 107; and X-linkage in bipolar and unipolar illnesses (abs.), 200; pairs of in spermatocytes (abs.), 201; mapping of genes within (abs.), 376
Chromotid exchanges: detection of (abs.), 107
Cloninger, C. R.: abs., 377
Coitus: age at and cervical neoplasia, 255–260
Colombia: "large" and "small" families in, 44–59
Complex Adaptation in Evolving Populations, 295
Computer Simulation in Human Population Studies, 293
Concepts in Ethology. Animal and Human Behavior, 196
Congenital malformations: in American Indians, 203–215; and spina bifida in Utah, 216–220
Contraception: and perceived contribution of children to marriage, 79–85; among OEO patients, 173–180; and cervical neoplasia, 255–260; among Mormons, 282–283; in a Nova Scotia fishing village, 333. *See also* Birth control, Family planning.
Contraception and Fertility Change in the International Postpartum Program, 293
Counseling: in counterculture population, 189–193. *See also* Genetic counseling.
Covariation: genetic basis of (abs.), 108
Crow, James F.: bk. rev., 295

Decline of Fertility in Germany, The, 197
Demography: Mindel Sheps Award in, 288–289
Depression: and pregnancy and birth complications, 255–260

Dickinson, W. J.: bk. note, 381–382
Digit preference: in census enumerations, 279–281
Disability: effects of social epidemiological factors on, 235–249
Dizygotic twinning rate: observations on decline in, 167–172
Down's syndrome: among American Indians, 213; in infants of young mothers (abs.), 376
Drugs: and chromosome breakage (abs.), 106
Dyke, Bennett: bk. note, 293

EAVES, L. J.: abs., 108
Education: and serum cholesterol, 34–43; and fertility-related attitudes and behavior, 63–74; and disability risk, 243, 247
Enzymes: and replacement therapy in Gaucher's disease (abs.), 106
Ethical Issues in Human Genetic Counseling and the Use of Genetic Knowledge, 93–96
Etzioni, Amitai: bk. rev., 198
Evolution: and the sex ratio (abs.), 200; and Neo-Darwinian theory (abs.), 290; in humans and chimpanzees (abs.), 291

FAMILY PLANNING: and fertility reduction, 9–10; and family size in Colombia, 44–59; and alienation antecedents of unwanted fertility, 60–74; and perceived contribution of children to marriage, 75–85; and screening for Tay-Sachs disease, 131; and choice of method in OEO patients, 173–180. *See also* Birth control, Contraception.
Family Planning in Canada, A Source Book, 198
Family resemblance: and group differences, 111–116
Family size: evaluation of in Colombia, 44–59; and marital adjustment, 75–85; and excess and deficit fertility, 89–92; among Mormons, 146–147; and birth order, social class, and intelligence, 261–268; in England and Wales, 344–355
Famine and Human Development. The Dutch Hunger Winter of 1944/45, 379
Faust, J.: abs., 107
Fecundity: biological determinants of, 17–22
Fertility: proposals for enforced control of, 1–16; and nutrition, 17–22; and alienation, 60–74; excesses and deficits in, 89–92; throughout four generations, 144–150; sociocultural correlates of in Iran, 151–166; among Mormons, 282–284; heritability of, 285–288; in a fishing economy, 326–327; in England and Wales, 344–355; and height (abs.), 375
Filial regression: meaning of, 86–88
Filipino Muslims: son preference among, 181–188
Fishing: and fertility, 326–337
Folk Remedies of the Low Country, 197
Fowler, R. C.: abs., 377
Fox, M. W.: bk. rev., 196
Frazzetta, T. H.: bk. rev., 295
Freedman, Ronald: bk. note, 382
Friedl, J.: abs., 200
Fuller, R. N.: abs., 199

GALTON'S LAW, 86–88
Gartler, S. M.: abs., 291
Gaucher's disease: replacement therapy in (abs.), 106
Geertz, Hildred: bk. rev., 295
Genealogical Mathematics, 294
Gene-enzyme Systems in Drosophila, 381–382
Genes: and retinoblastoma (abs.), 199; in humans and chimpanzees (abs.), 291; and half-chromatid mutations (abs.), 291; mapping of within human chromosomes (abs.), 376. *See also* Genetics.
Genetic counseling: alternative models for, 297–303; and family planning professionals, 304–314; and maple syrup urine disease (abs.), 376
Genetic Distance, 295
Genetic Fix, 198
Genetic screening: for hemoglobinopathy (abs.), 106; social aspects of, 125–133; knowledge, attitudes, and practices of family planning professionals, 304–314
Genetic Structure and Function, 379–380
Genetic Structure of Populations, 195
Genetics: and filial regression to the mean, 86–88; and perinatal deaths (abs.), 106; and covariation (abs.), 108; and family resemblance and group differences, 111–116; and hereditary disease in populations (abs.), 199; and IQ of PKU sibs (abs.), 199; and retinoblastoma (abs.), 199; and bipolar and unipolar illnesses (abs.), 200; and strabismus (abs.), 200; and malformations among American Indians, 203–215; of spina bifida (abs.), 216–220; and heritability of fertility, 285–288; of Yanomama Indians (abs.), 290; and monitoring of mutagens (abs.), 375; and hair dyes as mutagens (abs.), 375; and ethnic variation in disease (abs.), 375–376; and Down's syndrome (abs.), 376; and gene mapping within chromosomes (abs.), 376; and tests for maple syrup urine disease (abs.), 376; and quantitative linkage (abs.), 376; and sociopathy (abs.), 377; and migraine headaches (abs.), 377; and spatial test performance (abs.), 377; and tongue rolling and hand clasping (abs.), 378. *See also* Genes, Genetic counseling, Genetic screening.
Genetics and American Society, 197
Genetics and Social Structure: Mathematical Structuralism in Population Genetics and Social Theory, 294
Genetics of Flowering Plants, 296
Genotype: interaction of with undernutrition (abs.), 107
Glossary of Mental Disorders and Guide to Their Classification for Use in Conjunction with the International Classification of Diseases, 294–295
Goran, Morris: bk. note, 381
Goss, S. J.: abs., 376
Grant, Verne: bk. rev., 296
Group differences: and family resemblance, 111–116
Group selection: theory of (abs.), 291

HAIR DYES: as mutagens (abs.), 375
Half-chromatid mutations: abs., 291
Harris, C. L.: abs., 290
Hashish: and chromosome breakage (abs.), 106
Headache: concordance for in twins (abs.), 377
Health behavior model, 126–127
Hegmann, J. P.: abs., 200
Hemoglobinopathy: screening for (abs.), 106
Heritability: of IQ, 113; of fertility, 144–150, 285–288; limitations of parameter of (abs.), 290

Hiernaux, Jean: bk. note, 380
Hill, A. P.: abs., 376
Hilton, Bruce: bk. rev., 93–96
Hippies: social work among, 189–193
Homicide: effect of on life expectancy figures, 338–343
Howells, W. W.: bk. rev., 198
Hsu, T. C.: bk. note, 382
Human Genetics, 294
Human Population Genetics in India, 380
Human Reproduction. Biology and Social Change, 195–196
Human Variation and Natural Selection, 379
Huntington's disease: sex-ratio anomalies in (abs.), 199

ILLEGITIMATE BIRTHS: effect of legal abortion on, 117–124; methods of measuring, 356–371
Imaizumi, Y.: abs., 108
Inbreeding: and blood group frequencies in Britain (abs.), 108; in limited populations (abs.), 108; effect of, 115–116; and isonomy (abs.), 200
India: emigration of scientists from, 250–254
Indian Health Service: birth records of, 204
Infant mortality: economic and social correlates of, 315–325
International Inventory of Information on Induced Abortion, 194–195
Introduction to Personality, An. Research, Theory, and Applications, 381
Ionizing Radiation, Levels and Effects: Report of the United Nations Scientific Committee on the Effects of Atomic Radiation, 100–102
IQ: and filial regression to the mean, 86–88; heritability of, 113; and schizophrenia (abs.), 291; and birth order, family size, and social class, 261–268; and serum uric acid levels, 229–234
Iran: sociocultural correlates of fertility in, 151–166
Isonomy: and inbreeding (abs.), 200

JEWISH COMMUNITY: genetic screening for Tay-Sachs disease in, 125–133
Jones, M. B.: abs., 291

KING, M.-C.: abs., 291
Kinship: in limited populations (abs.), 108
Kinship in Bali, 295
Kitchin, F. C.: abs., 199
Knodel, John E.: rev., 197
Kumar Son, Ranjan: bk. rev., 103–104

LACTATIONAL AMENORRHEA: and nutrition, 20
Lagenbeck, U.: abs., 376
Lalor Foundation: research fellowship program of, 289
Latt, S. A.: abs., 107
Lecture Notes in Biomathematics 3. Stochastic Population Theories, 296
Lesch-Nyhan syndrome: and serum uric acid, 229–230; and half-chromatid mutations (abs.), 291
Leviandier, Th.: abs., 108
Licenses: as a means of enforced fertility control, 1–16
Life and Contributions of Walter Bradford Cannon, 1871–1945, 380
Life expectancy: effect of homicide and suicide rates on, 338–343
Life on the Planet Earth, 381
Ludmerer, Kenneth M.: bk. rev., 197
Ludwig, Donald: bk. rev., 296
Luria, S. E.: bk. rev., 197

MACHIN, G. A.: abs., 106
Malnutrition: and female fecundity, 17–22; and mental development (abs.), 107
Manic depression: X-chromosome linkage in (abs.), 200
Man's Future Birthright. Essays on Science and Humanity, 96–98
Manual of Sampling Techniques, A, 103–104
Maple syrup urine disease: tests for and genetic counseling (abs.), 376
Marihuana: and chromosome breakage (abs.), 106
Marriage: perceived contribution of children to, 75–85
Marriage age: and the sex ratio (abs.), 200; and family size in England and Wales, 346–347
Marriage rate: effect of legal abortions on, 117–124; of U. S. women by decades, 135–137
Martin, N. G.: abs., 378
Maternal age: at birth of twins, 169–171
Menarche: age at and body weight composition, 18–19
Mendlewicz, J.: abs., 200
Menopause: age at, 20
Menstruation: effect of nutrition on, 17–22
Mental illness: and pregnancy and birth complications, 269–278
Meyer, H. H.: abs., 290
Mindel C. Sheps Award, 288–289
Mitton, J. B.: abs., 375
Modern Concept of Nature. Essays on Theoretical Biology, 96–98
Moore-Cavar, E. C.: bk. rev., 194–195
Mormons: fertility of, 144–150, 282–284; dizygotic twinning rates among, 167–172
Morowitz, H. J.: bk. note, 381
Morton, Julia F.: bk. rev., 197
Morton, Newton E.: bk. rev., 195
Moses, M. J.: abs., 201
Muller, H. J.: bk. revs., 96–98
Muscular dystrophy: and isoenzymes of hexokinase (abs.), 292
Mutagens: hair dyes as (abs.), 375; program to monitor (abs.), 375

NEEL, J. V.: abs., 290
Neo-Darwinian theory: axioms in (abs.), 290
Neurosciences Research Symposium Summaries, Vol. VII, 382
Nichols, W. W.: abs., 106
Noël, B.: abs., 107
Nova Scotia: fishing and fertility in, 326–337
Nutrition: and female fecundity, 17–22
Nuzzo, N.: (abs.), 376

OCCUPATION: and serum cholesterol, 34–43; and disability risk, 242–243, 247
On Development. The Biology of Form, 196
Outcrossing: and genetics, 115–116

Pacific Islanders, The, 198
People of Africa, The, 380

Petersen, William: bk. note, 380–381
Phenylketonuria: and IQ of siblings (abs.), 199
Philippines: son preference among Muslims in, 181–188
Placental alkaline phosphatase: and spontaneous abortion, 221–227
Population, 380–381
Population and the New Biology, 197
Population control: and marketable licenses for babies, 1–16
Population growth: in the U. S., 5–7
Populations: effect of nutrition on female fecundity in, 17–22; inbreeding in (abs.), 108; fertility of tribal, rural, and urban groups in Iran, 151–166; hereditary disease in (abs.), 199; increase in and sex ratio (abs.), 200; and strabismus (abs.), 200; heritability in (abs.), 290; group selection in (abs.), 291; and ethnic variation in genetic disease (abs.), 375; fertility and height in (abs.), 375; monitoring of mutagens in (abs.), 375
Pregnancy: complications of and mental illness, 269–278
Proceedings of a Research Conference on Natural Family Planning, 195
Psychosis: and pregnancy and birth complications, 255–260

Race, 194
Race Concept, The, 379
Readings on Ethical and Social Issues in Biomedicine, 104–105
Referees: for journal articles, 383
Relative fitness: method for estimating (abs.), 290
Religion: and fertility-related attitudes and behavior, 63–74
Remarriages. United States, 196
Replacement therapy: in Gaucher's disease (abs.), 106
Retherford, Robert D.: bk. rev., 293
Retinoblastoma: pleiotropic effects in (abs.), 199
Roberts, F.: bk. note, 379

Sanghvi, L. D.: bk. rev., 380
Schizophrenia: and birth complications, 269–278; and IQ (abs.), 291: and non-psychotic familial disorder (abs.), 377
Schlesinger, Benjamin: bk. rev., 198
Schmidt, R. M.: abs., 106
Schmitt, Francis O.: bk. note, 382
Science and Anti-science, 381
Scientists: emigration of from India, 250–254
Screening. *See* Genetic screening.
Serum cholesterol: role of education, occupation, and income in, 34–43
Serum uric acid: and intellect, 229–234
Sex ratio: and Huntington's disease (abs.), 199; and marriage age and population increase (abs.), 200; and maternal-fetal blood group compatibility, 225–226
Sexual Rights and Responsibilities of the Mentally Retarded, 98–100
Sickle cell: screening for (abs.), 106
Sivin, Irving: bk. note, 293
Smith-Keary, P. F.: bk. note, 379–380
Social work: among counterculture population, 189–193
Socioeconomic status: and serum cholesterol, 34–43; and perceived contribution of children to marriage, 75–85; and genetics, 113; and birth order, family size, and intelligence, 261–268
Sociology of Human Fertility, The. An Annotated Bibliography, 382
Sociopathy: sex differences in familial transmission of (abs.), 377
Son preference: among Filipino Muslims, 181–188
Spatial texts: and sex-linkage (abs.), 377
Spermatocytes: chromosome pairs in (abs.), 201
Spina bifida cystica: in Utah, 216–220
Spinsterhood: method of computing period rates of, 134–143
Stein, Zena: bk. note, 379
Strabismus: genetic analysis of incidence of (abs.), 200
Strategic Intervention in Schizophrenia: Current Developments in Treatment, 194
Strickland, J. M.: abs., 292
Studies in the Philosophy of Biology, 195
Sub-fertility and Infertility in Africa, 296
Suicide: effect of on life expectancy figures, 338–343
Suicide and Attempted Suicide, 293–294
Susser, Mervyn: bk. rev., 102–103
Swanson, Harold D.: bk. rev., 195

Tanaka, K.: abs., 290
Tay-Sachs disease: social aspects of genetic screening for, 125–133
Thirty-six Lectures in Biology, 197
Trimble, B. K.: abs., 199
Twins: personal preference in (abs.), 108; blood group, behavioral, and morphological differences among, 372–374; and migraine headache concordance (abs.), 377; and concordance for tongue rolling and hand clasping (abs.), 378

Uchida, U.: abs., 107
United Nations: bk. rev., 100–102
Uric acid. *See* Serum uric acid.
Uricchio, William A.: bk. rev., 195
Utah: spina bifida cystica in, 216–220; Mormon fertility in, 282–284

Vogel, F.: abs., 375

Wagener, D. K. (abs.), 375
Wales: families with children in, 344–355
Wertz, Richard W.: bk. rev., 104–105
WHO Expert Committee on Drug Dependence, Twentieth Report, 295
Williams, Kristen M.: bk. rev., 196
Wilson, D. S.: abs., 291
World Health Organization: bk. rev., 294–295

X-rays: and nondisjunction in mouse oocytes (abs.), 107
XYY syndrome: psychological evaluations in (abs.), 107

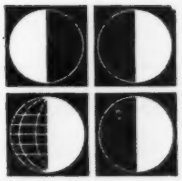
Yanomama Indians: genetic structure of (abs.), 290
Yarley, Marjorie: bk. rev., 196
Yen, W. M.: abs., 377

Ziegler, D. K.: abs., 377

Contents

SOCIAL BIOLOGY

Volume 22, 1975



Volume 22 **Spring 1975** **No. 1**

Marketable Licenses for Babies: Boulding's Proposal Revisited, *David M. Heer* 1

Demographic Implications of the Biological Determinants of Female Fecundity, *Rose E. Frisch* 17

Effectiveness of Abortion as Birth Control, *Stephen J. Williams and Thomas W. Pullum* 23

Analysis of Genetic and Environmental Sources of Variation in Serum Cholesterol in Tecumseh, Michigan: II. The Role of Education, Occupation, and Income, *John D. Orr, Charles F. Sing, and Walter D. Block* 34

The Differential Evaluation of "Large" and "Small" Families in Rural Colombia: Implications for Family Planning, *Michael Micklin and Patrick J. H. Marnane* 44

Alienation Antecedents of Unwanted Fertility: A Longitudinal Study, *H. Theodore Groat and Arthur G. Neal* 60

Perceived Contribution of Children to Marriage and Its Effects on Family Planning Behavior, *Patricia L. Tobin* 75

Brief Reports

A Note on Regression to the Mean, *Atam Vetta* 86

Communications

Comment on "Excess and Deficit Fertility in the United States," by Weller, *Barbara S. Janowitz* 89

Reply to Janowitz's Comment on "Excess and Deficit Fertility in the United States," *Robert H. Weller* 91

Book Reviews

Ethical Issues in Human Genetics: Genetic Counseling and the Use of Genetic Knowledge (Hilton et al.), *Ray M. Antley* 93

The Modern Concept of Nature. Essays on Theoretical Biology (Muller) and Man's Future Birthright. Essays on Science and Humanity (Muller), *R. C. Lewontin* 96

Sexual Rights and Responsibilities of the Mentally Retarded (Bass), *V. Elving Anderson* 98

Ionizing Radiation. Levels and Effects: Report of the United Nations Scientific Committee on the Effects of Atomic Radiation (United Nations), *William J. Blot* 100

Causal Thinking in the Health Sciences (Susser), *J. William Flynt, Jr.* 102

A Manual of Sampling Techniques (Kumar Som), *Leslie Kish* 103

Readings on Ethical and Social Issues in Biomedicine (Wertz), *Paul R. Gastonguay* 104

Periodical Abstracts

Genetics: Gordon Allen 106

Volume 22 **Summer 1975** **No. 2**

Analysis of Family Resemblance and Group Differences, *N. E. Morton* 111

The Relationship Between Legal Abortion and Marriage, *Karl E. Bauman, Gary G. Koch, J. Richard Udry, and Jean L. Freeman* 117

Social Aspects of Genetic Screening for Tay-Sachs Disease: The Pilot Community Screening Program in Baltimore and Washington, *David V. McQueen* 125

A Method of Computing Period Rates or Spinsterhood and Childlessness from Census Data Applied to the United States, *Prithwis Das Gupta* 134

Intergenerational Fertility Throughout Four Generations, *Jeffrey M. Wise and Spencer J. Condie* 144

Sociocultural Correlates of Fertility Among Tribal, Rural, and Urban Populations in Iran, *Ali A. Paydarfar* 151

Some Observations on the Decline in the United States Dizygotic Twinning Rate, *Grace Wyshak* 167

Factors Affecting the Choice of Contraceptive Method by a Group of OEO Patients, *Susan H. Cochrane* 173

Son Preference Among Filipino Muslims: A Causal Analysis, *William F. Stinner and Paul Douglas Mader* 181

Brief Reports

The Flower Children of Sudbury: A Note on Social Work Services for a Counterculture Population, *Charles W. Smiley* 189

Book Notes 194

Periodical Abstracts 199

Volume 22 Fall 1975 No. 3

Congenital Malformations in the American Indian, *Jerry D. Niswander, Mark V. Barrow, and Glenn J. Bingle* 203

A Genetic Study of Spina Bifida Cystica in Utah, *Charles M. Woolf* 216

Abortion: A Hypothesis on the Role of ABO Blood Groups and Placental Alkaline Phosphatase, *Egido Bottini* 221

Intellect and Serum Uric Acid: An Optimal Concentration of Serum Urate for Human Learning, *Henry A. Stevens, A. J. Cropley, and D. Paul Blatter* 229

Effects of Social Epidemiological Factors on the Severity of Disability for White and Nonwhite Disabled, *Thomas T. H. Wan* 235

The Brain Drain from India, *H. Inhaber* 250

Age at First Coitus and Choice of Contraceptive Method: Preliminary Report on a Study of Factors Related to Cervical Neoplasia, *C. Gary Merritt, Saul H. Rosenberg, Bonnie Edington, and Leonard A. LoSciuto* 255

Birth Order, Family Size, Social Class, and Intelligence, *Kevin Marjoribanks and Herbert J. Walberg* 261

Pregnancy and Birth Complications Among Mentally Ill and Well Mothers and Their Children, *Bertram J. Cohler, David H. Gallant, Henry U. Grunebaum, Justin L. Weiss, and Enid Gamer* 269

Brief Reports

Age Heaping in Recent National Censuses: An Addendum, *Jerry W. Wicks and Edward G. Stockwell* 279

Mormon Fertility and the Americanization Hypothesis: Some Further Comments, *John Willis* 282

Communications

Observations on "A Re-examination of the Heritability of Fertility in the British Peerage," by Williams and Williams, *Russell M. Reid* 285

Reply to Reid's Observations on "A Re-examination of the Heritability of Fertility in the British Peerage," *B. J. Williams and L. A. Williams* 287

The Mindel C. Sheps Award in Mathematical Demography 288

Lalor Foundation Research Fellowship Program for 1976 289

Periodical Abstracts 290

Book Notes 293

Volume 22 Winter 1975 No. 4

Alternative Models of Counseling for Genetic Disorders, *Verle E. Headings* 297

Genetic Screening and Genetic Counseling: Knowledge, Attitudes, and Practices in Two Groups of Family Planning Professionals, *Edwin W. Naylor* 304

Economic and Social Correlates of Infant Mortality: A Cross-sectional and Longitudinal Analysis of 63 Selected Countries, *Eui Hang Shin* 315

Fishing and Fertility: A Study of a Nova Scotia Fishing Village, *Ishmael O. Okraku* 326

Suicide and Homicide as Causes of Death and Their Relationship to Life Expectancy: A Cross-cultural Comparison, *Gideon Vigderhous* 338

Families with Children in England and Wales, *S. M. Farid* 344
